To whom it may concern

The management of UMG Foundation interviewed and selected Brett Lipeles and his team at Exhibit and Display Consultants to make recommendations and undertake the conceptualizing, budgeting, planning, implementation and execution logistics of the domestic and oversee field operations of UMGF's Poetry-on-Canvas Division.

One of the main requirements of PoC requires the setting-up and organization of 35-plus large scale outdoor tents to accommodate projected daily traffic in the region of 9,000 patrons daily. The 4-week event projects attendance of approximately 360,000 per venue over each pre-planned 4-week period, interstate. It's targeted for 49 states, annually.

Brett and his team have been consistently working with UMGF on this project planning for the past 2 years. He and his team have been instrumental in assisting our organization to anticipate oversights, challenges and to plan for projected cost efficiencies and cost-reductions that were based on his experience in his chosen field of business activities.

Likewise, uncovering event pre-requirements to be incorporated in each aspect of project planning and implementation processes to lead to a better experience for patrons as well as delivering projected overall cost reductions. Brett's teamwork has proven invaluable to our foundation from the inception of the project and his involvement with it.

In addition, Brett and his team and his recommended project implementation component suppliers have proven to be responsive, experienced, reliable and knowledgeable and offered great value to the project and for the foundation. We can strongly recommend Brett and his team and his component suppliers to whoever is in need of their services.

Respectfully yours,

UMG Foundation Organization

Franklyn Smith, Marketing Director
